DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species of claims 4, 12 and 20, wherein completing the purchase request includes confirming a valid credit account

Species of claims 5, 13 and 21, wherein completing the purchase request includes sending a request for goods

Species of claims 6, 14 and 22, wherein completing the purchase request includes when not a micropayment confirming a valid credit transaction.

Species of claims 7, 15 and 23, wherein completing the purchase request includes when not a micropayment sending a request for goods.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
